Software developer (m/f/d)

FRAMEWORK ROBOTICS

DESIGNED FOR THE DEEP, BUILT FOR YOU.

We are a young and dynamic company from Rostock that develops and sells innovative ocean technology. We are currently still a small team of nine employees and are looking for further support in various areas. We look forward to getting to know you better. To find out more about us and our team, visit us on Instagram (@framework_robotics), LinkedIn (FRAMEWORK ROBOTICS GmbH) and on our website (www.fw-robotics.de).

Why us (what we offer):

- ❖ Salaried 35-hour week
- ❖ Employee Benefit Programmes (e.g. bike leasing)
- ❖ 28 days holiday
- ❖ Flexible working hours
- ❖ Remote working possible

What we are looking for:

- ❖ Extensive knowledge of C++ and at least one other programming language
- ❖ Basic knowledge of ROS II
- ❖ Goal-orientated teamwork
- ❖ Personal responsibility for completing tasks
- ❖ Basic knowledge of underwater hardware

What you should bring:

- ❖ Completed software development or robotics studies
- ❖ Professional experience advantageous

We would be happy to clarify anything else with you in a personal interview. Above all, we are looking for motivated team members with versatile skills who want to work with us on our vision. Let's find out if we can dive into a shared future together.
